

AMENDMENTS TO THE SPECIFICATION

Please replace paragraph [0025] with the following amended paragraph:

[0025] FIG. 1 shows an entire structure of the concrete cutter 1 excluding a right side body cover 8 (see FIG. 2) and a supporting arm cover 9 (see FIG. 2) both of which are removed for the convenience of explanation. This concrete cutter 1 is provided with a small air-cooled internal combustion engine 3 functioning as a prime mover and mounted inside the main housing 2 which is provided with a rear handle 6 and a front handle 7. Herein, this main housing 2 serves also as a driving side supporting member of the power transmission device 10 according to this embodiment. A boss 4a for mounting a centrifugal shoe of a centrifugal clutch 4 is externally and fixedly fitted on a crankshaft 3a of the engine 3 by a nut 4c. To a clutch drum 4b of this centrifugal clutch 4 is integrally attached a first pulley (multiple thread V pulley) 11 which constitutes part of the power transmission device 10.

No new matter has been introduced by way of this amendment, as evidenced at least by Fig. 2.
